2 Sliding Glass Shower Doors

Brand NEW but too tall for my old house ceiling. Unfortunately we tried to install so we have messed up the tracks but that can be replaced at Lowes. The doors are perfect since they just came out of the box. The "glider" hardware is on them and the handles are still in the original wrapping. Each is 73" by 31" if I measured correctly. They are for a walk in shower and are beautiful clear tempered glass. I don't want to take them to the landfill!!!!
